

Sang-yun Lee (Yun)

Philadelphia, PA, USA | ideaist@engineering.upenn.edu | +1 (267) 679-0962 | yunlee.framer.website

EDUCATION

University of Pennsylvania

Philadelphia, USA

Master of Integrated Product Design (M:IPD)

Aug. 2026 – Present (Expected 2028)

- Interdisciplinary program across Penn Engineering, Weitzman School of Design, and Wharton — technology-driven strategic design with a focus on healthcare and accessibility

Sungkyunkwan University

Seoul, Korea

Master of Service Design (4.3 / 4.5)

Sep. 2022 – Aug. 2025

B.A. in Global Business Administration & B.S. in Data Science (3.95 / 4.5)

Mar. 2017 – Feb. 2022

- Thesis: *Data-driven Disability Persona Augmentation for Service Journey Inference* — Daily Living Support Needs of People with Developmental Disabilities

WORK EXPERIENCE

Samsung Electronics | Digital Appliances Division

Suwon, Korea

Business Developer, Market Intelligence Team

Jul. 2025 – Jul. 2026

- Orchestrated global demand analysis (GfK, Euromonitor, BSRIA) producing 5-year-ahead projections through 2030
- Built an enterprise-wide demand dashboard and AI chatbot via vibe coding (AX project), aggregating demand data across CMI, sales orgs (retail, subscription, online, B2B), and regional sales (RPM); presented to sales leadership and executives

SDI Lab | Data-Driven Service Design Business Strategy Consulting Institute

Suwon, Korea

Researcher

Jul. 2024 – Jul. 2025

- Conducted data-driven service design research across public-sector, corporate, and healthcare clients, quantifying personas from behavioral data to derive service strategy (see Projects)
- Led disability/aging research using AI simulation to test personas-driven strategies (see Publications); co-ran cross-institutional student programs (100+ participants)

ROKA | Republic of Korea Army

Injae, Korea

Headquarters Company Commander, Forward Observer Officer

Mar. 2022 – Jun. 2024

- As the youngest HCC, coordinated 60+ personnel across six support sections (transport, ammunition, comms, medical, ops, intel) as cross-functional lead; served as Forward Observer Officer during a North Korean missile provocation (Oct 2022)

BCG | Boston Consulting Group

Seoul, Korea

Research Analyst

Oct. 2021 – Dec. 2021

- Contributed to a strategic market-entry analysis for a Korean electronics manufacturer's automotive camera business, deconstructing the value chain to propose M&A targets

PROJECTS

SDI Lab | Data-Driven Service Design Projects

Since undergraduate research participation

- **National Rehabilitation Center:** Led daily-living journey-map research across individuals with spinal cord injury, developmental disabilities, and stroke; bridged research and action by directing a 40-participant hackathon with SKKU
- **VIP Concierge Robot Service:** Designed a robotic VIP-reception service for SKKU's President's Office inspired by Korea's ancient royal court protocol, orchestrating 3 robots into interlocking personas (welcome, guided tour, refreshment service) with ME robotics researchers
- **SAIHST:** Metaverse-based welfare/rehabilitation service and collaborative-artwork prototype for hospitalized patients
- **AIEX:** Organized a 118-student design-talent training program, including hackathons, a startup design-thinking school, and a Tokyo Polytechnic capstone
- **Shinsegae Starfield, Ministry of Culture/Sports/Tourism, Samsung Electronics:** Data-driven branding strategy for retail branches, citizen-participatory public communication (OECD Best Practice), and metaverse-based appliance service design

PUBLICATIONS

Data-driven Disability Persona Augmentation for Service Journey Inference

Published, Sungkyunkwan University

Jun. 2025

- Augmented Vineland-based data from 9 individuals with developmental disabilities to 2,400 cases; derived 5 persona clusters and ran AI-driven simulations to quantify support needs

Patterning Military Experience for Quality Improvement of Enlisted Soldiers

Published, Korean Academy of Military Social Welfare

Dec. 2024

- Interviewed 18 high-performing soldiers to derive a 5-stage life-cycle pattern model

EXTRA-CURRICULAR ACTIVITY

President, Federation of Korea ROTC 60th Officer

Mar. 2022 – Present

President, DeepBridge | Regular Customer Management AI Tool Start-up

May. – Oct. 2021

President, GRU | Start-up Strategic Consulting Club

Jan. 2020 – May. 2021

SKILLS

Tools & Software: MS Office, Rapid Prototyping, Vibe Coding, Figma, Unity, Magma, Rhino, Onshape

Languages: Korean (Native), English (Fluent), Chinese (Conversational)
